Australia

Hello World.

We're Lamb Weston.

Started in 1950 on a small farm in the Northwest region of the U.S., Lamb Weston has grown to be one of the world's largest frozen potato companies, happily delivering the delicious goodness of fries to over 100 countries.

While our growth has been remarkable, we never forget where we came from. Our humble beginnings taught us some valuable lessons. To listen carefully to you, our customers, walk in your shoes, see through your eyes – and put your challenges in the spotlight. It's how we invent new ways to make your job just a bit easier.

We've also learned that, just like our farmers dig for potatoes, we need to dig for good ideas. So we ask questions, lots of them, of our customers and ourselves. We search in unusual places and are brave enough to make the connections others sometimes miss. And we see things differently – just like our founder Gilbert Lamb did back in 1950. Amazing what a little ambition and a lot of hard work can do.

Welcome to the delicious world of Lamb Weston. What can we learn from you and your business today?

Stealth® Fries

This french fry has a clear advantage

Stealth® Fries feature a virtually transparent batter. This innovative technology offers you the best of both worlds – appetizing taste and appearance of traditional fries plus the profitability and holding performance of coated fries.

- Exclusive transparent coating made from potato starch
- Extended holding performance keeps fries hot, crisp and delicious twice as long as conventional fries
- Less waste means greater yields, more profits
